

ALTS-300

A MOVING EXPERIENCE. The ALTS-300 Automatic Laundry Tying Station can help you efficiently move bundles through the tying process. The ALTS-300 combines an enhanced model 2000 Series Tyer integrated with state-of-the-art bundle management transfer unit.. Together, these modules provide the excellence and reliability you've come to expect from Felins.

HIGHER PRODUCTIVITY AND LOWER COSTS are just two of the benefits you'll discover with the ALTS-300 Tying Station. Besides offering speed of 900 bundles per hour, the ALTS-300 enables you to reduce labor costs by eliminating unnecessary handling.

BUILT TO YOUR SPECIFICATIONS,

The ALTS-300 Tying Station will meet your needs exactly in both size and speed. Depending on your application requirements, we can alter the length and width of the entry and exit conveyors on either side of the tyer. Integrated sections are controlled by state-of-the-art time and space sequencing electronics.

WE WORK CLOSELY WITH YOU to fit the ALTS-300 Tying Station into your existing facility. Whether you currently utilize conveyors or not, the ALTS-300 can be integrated into your existing line to help improve productivity and reduce labor costs.
