

FLEX-STRAP™ TANDEM

STRETCH FILM BANDING

What's better than one? TWO. By combining two Flex-Strap™ XL-110 stretch wrapping machines into one system with conveyance, the Flex-Strap Tandem is the perfect bundling solution for facilities struggling to meet throughput goals or bundle extra long products.

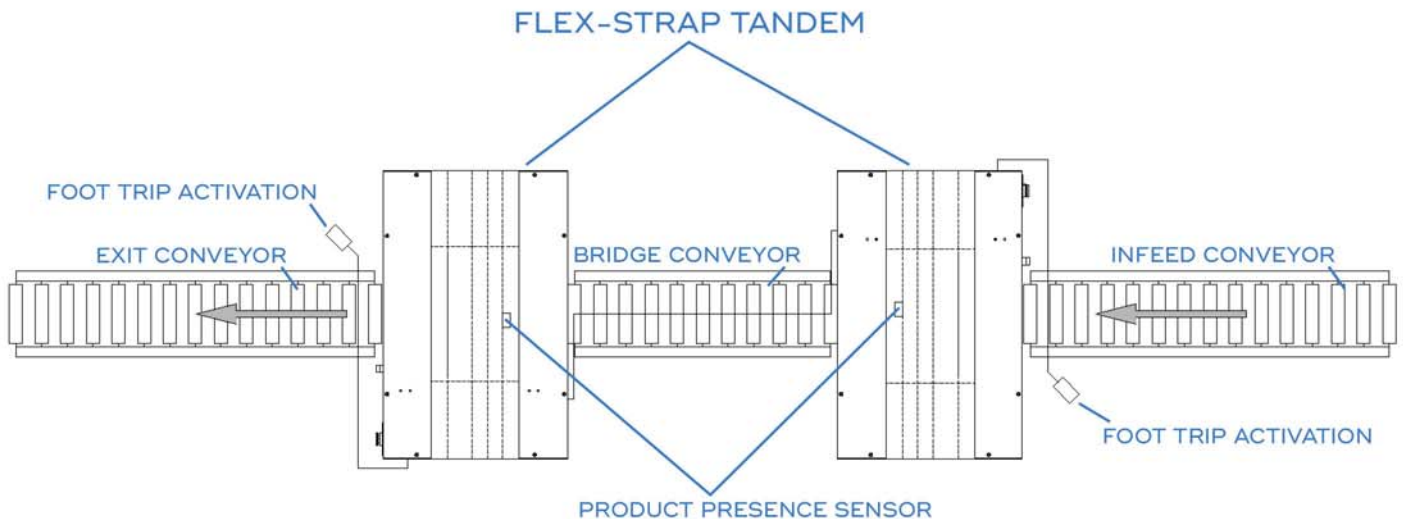

OPERATIONAL EFFICIENCY

The Flex-Strap Tandem system is more than just two machines. Featuring a tandem interface, the machines work together to optimize your bundling process and help you get product out the door.

That means your operations will no longer be held up by labor requirements or maintenance-heavy machines. Instead, you'll reduce operation costs while keeping employees and customers happy - talk about a win-win!
