

# ATS US-2100 AD-R

## ULTRASONIC BANDING MACHINE

Wider bands are increasingly in demand for logistical purposes and sales promotions. The US-2100, featuring unique ultrasonic welding technology, processes paper and film bands in widths of 72 mm or 97 mm. These bands provide ample space for printing marketing-specific information. The machine is easily accessible, requires only a small footprint, and ensures a high level of safety.

## SUSTAINABILITY

At the core of banding is the goal of packaging products sustainably. Banding requires only a minimal amount of material to secure a wide range of products together. The option to use paper bands instead of plastic film further enhances its environmental benefits. Beyond reducing packaging waste, banding also consumes very little energy compared to alternative methods such as shrink wrapping, which relies on energy-intensive heat tunnels.

## A FEW HIGHLIGHTS

- Heat Free Ultrasonic seal
- Intuitive operator control screen (in multiple languages)
- Standard and custom models available
- Diverse variety of banding materials available (plastic films and papers)
- Free training and technical support for life

Non Stainless Steel models available

“WE HAD BEEN LOOKING AT BANDED PACKAGING OPTIONS FOR A BIT AND THEN MADE THE STRATEGIC DECISION TO DEVELOP A PRODUCT WITH A BAND FOR LARGE-SIZED ORGANIC APPLES. WE REACHED OUT TO FELINS BECAUSE OF THEIR EXPERTISE IN THIS AREA, AND AFTER GOING THROUGH SAMPLES, WE FELT THIS WAS THE BEST OPTION FROM UPHOLDING OUR PRODUCT INTEGRITY AND QUALITY STANDARDS.”

BRIANNA SHALES, STEMILT MARKETING DIRECTOR

## EQUIPMENT SPECIFICATIONS

### ARCH SIZES

290mm (11.375") Wide x 230mm (9") High  
350mm (13.75") Wide x 220mm (8.625") High  
430mm (16.9") Wide x 205mm (8") High

### BAND WIDTHS

72mm & 97mm

### FACILITY REQUIREMENTS

Standard 120V Outlet

### SPEED

Up To 25+ Cycles Per Minute

### WARRANTY

1 Year

### TECHNICAL SUPPORT

Available Via Phone, Video Call, E-mail or In Person For The Life Of Machine

## A FELINS PARTNERSHIP

At Felins, we pride ourselves on developing strong partnerships with our customers. From inquiry to installation and training to preventative maintenance services, we'll help you find a custom solution that best optimizes your operations and minimizes packaging waste.

After all, we're inspired to create innovative alternatives because every packaging decision should help, not hurt, our planet.
