

TPS

SHRINK WRAPPING

Small or single-piece bundling? It usually means long hours, lots of wasted material and less-than-efficient throughput. But, with the TPS, you'll forget the days of manual bagging or hand wrapping by introducing a system that automatically bundles each piece faster and with less material than ever before.

OPERATIONAL EFFICIENCY

Small but mighty. That's how we describe the TPS. Designed to fit in nearly any facility, the TPS can wrap up to 15 pieces per minute (we dare you to try that manually!).

Not only does that mean you can increase throughput, it means you can reduce the amount of waste generated and number of burns and repetitive motion injuries associated with manual bundling, too.

A FEW HIGHLIGHTS

- Minimal maintenance requirements
- World-class technical service post-sale
- Custom films available
- Free training for life
- Fully automated

THE WRAPPING AND BANDING SOLUTION FELINS GAVE US FIT ALL OUR CRITERIA. WE ARE VERY HAPPY WITH OUR CHOICE AND ARE LOOKING AT OTHER WAYS TO USE THIS TECHNOLOGY.

EQUIPMENT SPECIFICATIONS

MODEL:	TPS Wrapper	1609-3 Heat Tunnel
MACHINE DIMENSIONS:	39"W x 62"H x 70"L	26"W x 51"H x 47"L
MAX. BUNDLE AREA:	13.75"W x 4.75"H x 17.75"L	
POWER REQUIREMENTS:	220V	
AIR REQUIREMENTS:	90 psi	N/A
SPEED:	Up to 15 pcs/minute	

A FELINS PARTNERSHIP

At Felins, we pride ourselves on developing strong partnerships with our customers. From inquiry to installation and training to preventative maintenance services, we'll help you find a custom solution that best optimizes your operations and minimizes packaging waste.

After all, we're inspired to create innovative alternatives because every packaging decision should help, not hurt, our planet.
