

TPS-A

SHRINK WRAPPING

Small or single-piece bundling? It usually means long hours, lots of wasted material and less-than-efficient throughput. But, with the TPS-A, you'll forget the days of manual bagging or hand wrapping by introducing a system that automatically bundles each piece faster and with less material than ever before.

OPERATIONAL EFFICIENCY

Small but mighty. That's how we describe the TPS-A. Designed to fit in nearly any facility, the TPS-A can wrap up to 25 pieces per minute (we dare you to try that manually!).

Not only does that mean you can increase throughput, it means you can reduce the amount of film waste generated and repetitive motion injuries associated with manual bundling, too.

A FEW HIGHLIGHTS

- Minimal maintenance requirements
- Programmable HMI controls
- Made in USA
- World-class technical service post-sale
- Custom films available
- Free training for life
- Fully automated

“

THE WRAPPING SOLUTION FELINS GAVE US FIT ALL OUR CRITERIA. WE ARE VERY HAPPY WITH OUR CHOICE AND ARE LOOKING AT OTHER WAYS TO USE THIS TECHNOLOGY.

EQUIPMENT SPECIFICATIONS

MODEL:	TPS-A Wrapper	1810-4 Heat Tunnel
MACHINE DIMENSIONS:	42"W x 60"H x 70"L	32"W x 59"H x 57"L
MAX. BUNDLE AREA:	16"W x 5"H x 20"L	18"W x 9"H
POWER REQUIREMENTS:	120V, 1P, 20A	230V, 3P, 50A
AIR REQUIREMENTS:	90 psi, 5 cfm	N/A
SPEED	Up to 25 pcs/minute	75 fpm

A FELINS PARTNERSHIP

At Felins, we pride ourselves on developing strong partnerships with our customers. From inquiry to installation and training to preventative maintenance services, we'll help you find a custom solution that best optimizes your operations and minimizes packaging waste.

After all, we're inspired to create innovative alternatives because every packaging decision should help, not hurt, our planet.
